#### MARTIN'S AMBULANCES 24 HOUR INSTANT SERVICE

This widely used ambulance service, operated the first private ambulance Belleville and District, and since that time has safely transported thousands of patients. We have endeavored to procure the latest and most modern equipt at all times and shall continue to do so.

Due to the ever-increasing volume of ambulance calls received each year and in order to maintain the very best service possible we have recently added a and ambulance to our motor equipment.

This new Custom Dodge Fluid Drive, like our present LoSalle Ambulance is completely equipped for all emergencies. It has the latest type stretcher and carries complete medical and First Ald supplies for the patients' comfort.

With the addition of this second ambulance we now feel we are in a posi-tion to give faster, more efficient, 24-hour service, than ever before. We take pride in the appearance and cleanliness of our equipment and shall consider it a mark of favor to have you inspect our ambulances at any time.

#### Bon Voyage

Britain's King and Queen and their daughters are now at sea in the mightly bettleably HMS. Vanguard, bound for South Artica, accompanied by the good withes of hundreds of millions of people throughout the world for a happy journey or the sea of the companies of piconineit place in the collimination of the variant sections by the people of the Union of South Africa who will rejeice to have as their guests the British Royal Family. The journey by sea will be as pleasant and instance of the property of the property of the property of the variable of the property of the propert

Almost eight years ago Their Majetites came to Canada and toured from coast to the woods as it destroys many birds and coast and left an abiding inspiration with aimast and leaves many homeless. the Canadian people. The young Princesses.

Everyone, adults and boys and girls, were at that time too young to accompany should take an active part in preventing their parents, but now they are on their distript to a part of the word entirely its preservation. The properties are to them and with the eageness of their youth they will enjoy the intreests. their youth they will enjoy the interests and wonders of the journey and tour of three and a half months.

cipal and fact.

South Africa will shortly have the great opportunity of paying its tribute to Ills Majesty, Her Majesty and the Princessor.

Seldom ever was any knowledge given to sat be symbol of the Commonwealth and keep, but to impart, the grace of this rich honor. Its gracious guests during the jewel is lost in concealment.—Bishop Hall coming four.

#### Preserve Wild Life

Preservation of fish and game in North America has become one of the problems of as of the people. How important this matter is can be seen when it is stated that during the years 1840 to 1914 on this conduring the years 1840 to 1914 on this con-tinent, man exterminated nearly one dozen species of birds. Whooping cranes and trumpeter swans are nearly extinct. Most of the birds now extinct once could be counted in millions. It is almost incredbe counted in millions, it is aimost incred-bile but it is a fact that in fifteen years man destroyed about ten million bufialo and only a small herd was saved from his rwayges. The beaver has disappeared from great stretches of country where once they

great stretches of country where once they were abundant.

Man to protect himself has to protect the wild life. To protect fruit trees, farm crops and forests from destruction by in-sects and to keep down weeds, all insect and weed eating birds are protected in both

and weed eating birds are protected in both the United States and Canada. If people were allowed to take all the fish they want or to shoot all deer, mose, ducks, geese, partridge, snipe or other birds they wish, or to trup beaver and other scarce fur bearing animals they de-sired, very soon there would be no birds, fish or animals left. That would mean that there would be no wild life available for who like to hunt or fish or for the protec-tion of orchard, farm and forest. Ontario Minister of Lands and Forests,

the Ben. H. R. Boott, has recomily strengted to the Ben. H. R. Boott, has recomily strengted to the stimulous of the beyone within an electronic or will dear the strength of the strength of

future will be pretty well assured."

Following are some ways which are suggested for helping save the fish, birds and

Do not destroy highs' nests or eggs.
Help prevent abuse of wild life by others FISHERMEN

PISHERMEN

Do not take more fish than the law allows

Do not take under-size fish.

Return all under-size fish to water.

Do not fish out of season.

HUNTERS
Hunt only during the lawful season.
Do not take more than the law allows.
Follow a wounded animal until found.

Do not trap protected fur bearing animals

#### \* Newspaper Facts

During his recent nation-wide tour of Canada, Field Marshal Viscount Montgomery held up the democratic press as a shining example of what his troops had fought to preserve.

By EDGAR A, GUEST (Copyright, 1946, Edgar A. Guest)

ANCESTRY

There was a fortune, we were told, Left by an ancestor of old, In chancery allowed to sink, Since none could find the missing link.

My mother thought, if search we made And proper interest we displayed, We'd surely get, when proofs were found That English fortune, pound for pound.

But always, with a shaking head, '
"Don't waste your time," my father said
"You leave old dead men's gold alone
And start a fortune of your own.

"Start now to live your lives so well
That those who follow you will tell
With pride at home, and everywhere,
That both your name and blood they
share."

#### Fashion Flashes

FINE DETAIL APPEARS in many of the new dress and cost spring were. Black and while silk printed in an annularly out-age in the silk printed in an annularly out-age in use of or a dress that has a high robe that curves to one state in the silk printed in the silk pri

NEW INTEREST is achieved by Spring fashions, due to lifting of fabric restrictions. Navy blue woolken is used for a reefer cut on princess lines. The skirt swirls in 110-inch fullness from a tiny waistine. High-placed peaked revers and narrow lumback cutifs with jewelled links.

INVITATION TO CHARM is offered by those lovely dance dresses of white or pastel silk chilfon with pleated skirts. Pate blue chilfon is the fabric selected for a charming frock with accordion-pleated skirt. The strapless bodier, with booling and shirring, is trimmed at jbe bodier cege with allover thread and laty allower sequences.

THERE'S NOTHING like smart simplicity for an all-day frock. Pine gray wool jersey is used for such a frock made with short sleeves and a neckline that curves diagonally to the side-but-toned line of the bodice.

#### MOULD TOMORROW'S CITIZENS...

for you entrust to them the education of your children. The men and women who follow this profession render to the community a service second to none. Every parent and every public-spirited citizen must feel that only people of the highest calibre should be entrusted with so viral a job. BUT UNFORTUNATELY:::

#### CAPABLE AND EXPERIENCED TEACHERS ARE QUITTING ... Why?

The salaries paid to teachers in every Ontario community have lagged far behind the rocketing cost of living.

Although devoted to their profession, many teachers feel that they cannot afford to pass up the opportunities for higher salaries offered in other fields.

TOO FEW YOUNG MEN AND WOMEN CONSIDER TEACHING AS A CAREER ... Why?

because . . Other professions offer far greater financial re-turn to a young person.

becastds . . . Teachers must spend as much time and money training for their job as any other professional group, without hope of a proportionate income.

#### THEREFORE ONTARIO TEACHERS MUST BE BETTER PAID ... Why?

A teacher cannot maintain his position in the community as he is expected to do, on a salary which keeps his standard of living relatively low.

because. If the teaching profession is not made more financially attractive, losses to more locarative professions plus-failare to attract first-class replacements must inevitably lower the standard of education in this province.

The education of our children must go on. The teachers of Ontario deserve your support. Let your School Trustees know that you favour better salaries for the teachers in your community.

W.O.N. NEWS

A new that for growned is greater at the process of t

## "GOOD OLD DAYS"

You bought your glasses from a peddler; you didn't know any better. A pair of 'specs' was a family possession, Maso and Paso having equal use for the same pair; and very often they were passed down for use by the next generation.

Today, with our knowledge of how human eyes differ in visual function and requirements when aid is needed, we SHOULD know better.

NO TWO HUMAN EYES ARE THE SAME! But how many of us are still living in the "good old DAZE"?

#### Great Gray Owl

Great Gray Owl

In the past 35 years, there have been only two records of Great Gray Owls at Toyroto—one in January, 1935, and one on
January 12th of the pyresently year, found by

It. & Shoets, of the Royal Chanked on Miseum.

It was the largest of all the owls—with a wingperseal exceeding five feet.

During some winters, numbers of them
desert their accustomed grounds and inwater Stattern Canada and the northern

Interest earned

The sustained progress of Canadian Breweries Limited is clearly indicated in its current caroling capacity; in the year ended October 31, 1946, earnings were equal to more than 2t times the maximum interest requirements on the currently offered issue

Growth in sales has been outstanding. In 1940 gross sales totalled \$16,963,000, last year sales were valued at \$62,207,000. In the same period earnings available for debenture interest rose from \$900,919 to \$7,448,300.

The company's growth reflects sound operating policies. Plants have been consolidated, wasteful competition has been climinated ince markets have been aggressively developed. The present issue of debentures represents a first charge on a property which is financially strong, espably managed and one of the largest factors in the brewing industry in Causada.

SERVICE, / LTD. MARTIN PHONES 3350, 3351

#### MARTIN'S AMBULANCES 24 HOUR INSTANT SERVICE

This widely used ambulance service, operated the first private ambulance In Belleville and District, and since that time has safely transported thousands of patients. We have endeavored to procure the latest and most modern equipment at all times and shall continue to do so.

• Due to the ever-increasing volume of ambulance calls received each year and in order to maintain the very best service possible we have recently added a second ambulance to our motor equipment.

This new Custom Dodge Fluid Drive, like our present LoSalle Ambulance is completely equipped for all emergencies. It has the latest type stretcher and carries complete medical and First Aid supplies for the patients' comfort.

With the addition of this second ambulance we now feel we are in a posttion to give faster, more efficient, 24-hour service, than ever before.

We take pride in the appearance and cleanliness of our equipment and shall consider it a mark of favor to have you inspect our ombulances at any time. SAINT JOHN AMBULANCE BRIGADE CAMPAIGN HEADQUARTERS

Ottawa, Feb. 5 (CP)— Prime Minister Mackennie King, in out-ining to the Common and the common a

Let us give you a

nual toll.

Canada's cost for sickness and untimely death is estimated to reach a total of one billion dollars a year.

Ten thousand spectators were attracted to a soap box derby sponsored by a daily billion dollars a year. It is obvious then that for Canada at pre-sent and for Canada in its great future such observances as National Health Week

need the support of every man, woman am child. In fact, they should preach this gos 'pel of good health every week. Every week should be a "Health Week."

Engus os "Health Week".
The sponsor organization, the Health League of Canada, is now emphasting an appeal for individual members.
The Health League, a voluntary association, believes that thousands of persons

appeal for indivious measure.

The Health Legape, a voluntary association, believes that thousands of persons well informed on matters of public and personal health would represent the powerful would be opinion associated to the building of which are the country.

Had gone with tailors or with hatters.

Forest Heritage, Pulp And Paper
Ralliway the used in Canada's transportation systems would, make a forest of 2
million trees each 50 feet lail and a foot
thick, frame houses form 72 per cent of Waat might have been, no one can state
Canada's botal wellings, and in per year, "by that chance different, had he claim

WINTER SLEEP

Over all the silent countryside the snow lies white and deep, the leafless trees, like sentinels is watchful vigil keep; the winter streams are volceless and nought but frest and blight hales o'er the Winter silence and greets the weary sight.

Though blight and desolation Reisn o'er the Winter world,

#### MONEY

when you need it

Mirror Phase Index CAMPBELL FINANCE

For now, they're only sleeping The violets beath the snow, Hepaticas and addge-tongues, and all the flowers that grow. The streamlet, too, is resting the stark and leafless trees, And dairies in the meadows Beet also at their case.

So when our life is dreary And nought but frost and big Reign o'er our restlers spirit Without a ray of light—Oh! May we then remember That while life's temperis blow Joy timot dead, but leeping, Like roses beath the mow.

—Helen B. Anderse

## **VETERANS' Business and Professional**

# LOANS

Up to \$3,000

A NEW Dominion Government Act provides that war veterans, resident in Canada and entitled to War Service Grants, may borrow up to \$3,000, on long terms, at reasonable interest rates, for business and professional purposes, as follows:

The purchase of a business or of an interest in a business.

The purchase or repair of instruments, tools, machinery or other equipment to be used in a profession, trade or business.

The construction, repair or alteration of a building u.v.d. or to be used in carrying on a profession, trade or business.

This Bank is authorized to make these Véterans' Loans, and our Managers will be glad to give helpful advice and assistance to all entitled to such loans.

Veterans may freely consult our Managers — many of then veterans themselves — as to how they can conveniently borrow for business and professional purposes.

#### Canterbury's, Restoration

A gift of five hundred thousand dollars has been presented by Mr. Thomas W. Lamont of New York for the purpose of rehas been presented by Mr. Thomas W. Pervicuty are the months of summer sunlamoned of New York for the purpose of restoring Canterbury Cathefral-which was
densaged during World War II by German
bonabs Such as gift is appreciated by the
Nagilah-speaking world to which Canter
borry is a shine and first in an expectation and the
United States and Canada and other Christian nations. Canterbury stands as the
symbol of the deepest emotions and feedingwith the present and the life of a
press people from the long distant past to
the present and looks forward into the
frature.

It is held of the prastest significance
in the present and looks forward into the
future.

It is a fact of the prastest significance
in the present and looks forward into the
future of the propies of the men line
Mr. Lamont attach the greatest importance
to this historic edifice. It indicates a boundness of outlook in this modern world that
the meaning of Canterbury shot the
meaning of Canterbury shot is
the meaning of Canterbury was bulk,
beginning in 1670.

Mr. Lamont in his letter says "We Amer
House of the present of the present of the present of the present in the papers subting the present of the present

Fassion in Ine Sorret
Sorrist censor upg Russian fiction writers to pack more warm ideological conviction into their products. An example of what they have in mind is, we presume, the following inspired passage from Macoow's latest best feller, "Droshly and Bonya."
We translate first the wedding guests would never go, But now the lovers were alone. time when this great structure was multi-beginning in 1070. Mr. Lamont in his letter says "We Amer-icans of all others can never forget that in the dark days of 1940 and 1941 it was only British courses and the blund right of free men that saved the world from the evil of Twetonic onslaught. Canterbury is the heritage of the whole Christian world."

Bilizzards

People on the North American continents and the people of Britain are being tried by the univoxed weakers conditions where the univoxed weakers conditions which have dominated all these parts of the more than the people of Britain are being tried by the can sit down and have a good long talk have dominated all these parts of the more than the phenomenal increase of summerivers—the missiphere. Britain and increase in an inference of the phenomenal long principle of the phenomenal contracts transportation and distribution in through weather conditions, but in North America the trouble is not only distribution for it is upset in some areas, but it is the immense task of coping with the downfall of snow which has fall-Norm America the trouble is not only distribution for it is upset in come as the control of the

had some storm experiences which resemble those the people of Britain have gone through but the rest of Canada has not felt ny of the drawbacks of unusual win-

#### Hitler's View of Seapower

A news story of Hitler's decision to de-mmission the German High Seas fleet A news story of Biller's decision to de-commission the German High Seas fleet four years ago in January 1943 leads the London Free Press to remark that this is "another proof that former Kaiser Wil-helm was right when he saddy senting the that the Germans were read that the Germans were re-liablers." The way to feel on the say that "by geography the Germans are primarily army-minded." The foes of Germany it is pointed out were traditionally met on land, just as the foes of Britain have tradiisnot, just as the toes of Brand have teach tionally been met at sea. Then the remark is made, "It is hard to see how a land-minded people can ever adopt the same attitude as one which has traditionally looked abroad, although some of Canada's best sailors came from the Prairies, and the United States, not primarily a mari-time power, developed the world's largest

DAVY The dispute between those who like the late Admiral Mahan believe that seapower is decistive in history, and those who, like Haushofer talk of geopolitics in terms of land power may have become obsolete with the growth of air power. But evidently Hitler, the ex-corporal, couldn't appreciate the value of a fleet." iral Mahan believe that seapo

The outcome of events did however show over the control of events did however show the first the name of a first the name of a

MEET AFTER 22 YEARS

### Plan to Bring Steel, Timplate Mills to Wales

My "in-law" brother, I confess,

In envy, deep and pure.

Was by a "cravateur." I've always worn the common bow,

Has richer tastes than I.

He wears the most expensive dress
That dividends can buy.
But of his neckties now I sing

In stripe or polka dot, The sort that haberdashers show And round their fingers knot.

With little money in the bank,
And in my pocket less,
I can't afford that bit of swank
Which personal ties express.
I wear the simple blue and gray,
As long as they endure,
Without this label to display:
"Made by a crayateur."

Forever I must go.
But still one secret wish have I,
Ere ends my earthly tour,
Just once I'd like to wear a tle
"Made by a cravateur."

Made by a cravateur.

Port Talbot, Wales, Feb. 7 —
(CP)—The British sisel industry
is awaiting the Steel Board's
bleasing before going shasd on a
£50,00,000 (£200,000,000) venture to bring modern sheet and
tinplaite processes to Wales, E. H.
Lever, steel executive, told to
Chamber of Commerce here last
sisted.

Chamber of Commerce here is night.
Leading firms had agreed to cooperate in the proposed. Bise Company of Waies, he said. To company would build a new herp plant here and cold redution mills at Swanses and Liau city. A third cold mill was plan ned for Port Taibot or Newport and round their ingers knot.
It isn't long before they're frayed,
When lost is their allure,
But they're just necktles factory made
Not by some "cravateur." tempted in any section of the Bri-tish steel trade, anticipating a growing demand for steel sheets from the motor trade and other

One knows not what the year may hold Or fortune may bestow. Perhaps where dollar ties are sold

#### 77th ANNUAL REPORT

"A year's operations quite satisfactory in all respects."

NEW ASSURANCES PAID FOR IN 1946

The new sales in 1946, almost entirely Canadian, established a new high far enceeding my previous year. Over \$4,000 new palities were added to the beeks.

HOME INSULATION CO.

TOTAL ASSURANCES IN FORCE ON DECEMBER 31, 1946 . \$855,165,736

The Company has closed each of its seventy-seven years of operation with more insurance in force than at the beginning of the year. TOTAL ASSETS

ALL ANNELS

The safety, of the policyholders' funds has always been the corner-stems of the Company's investment policy. TOTAL PAYMENTS TO POLICYHOLDERS AND

AL PAYMENTS TO POLICYHOLDERS AND BENEFICIARIES

45.5% of this amount was paid to living policyholders. Associated diseases of the heart, blood ressels and kidneys accounted for more than 50% of the death claims, cancer 14%, accidents 4%, taberculosis 2% and passements 2%. . \$ 16,897.185

SURPLUS EARNED IN 1946 In a mutual company, the banefits of successful operation acrue is policyholders, and the caraings in 1946 permit the continuation of the Company's long and outstanding record of high returns to policyholders, reducing the actual cost of their life insurance.

The 77th annual meeting of policyholders was held at the Head Office on February 6, 1947. A copy of the complete report of the proceedings will be sent on request.

JEEP EQUIPPED WITH SCHRAMM AIR COMPRESSOR

To the left, are the men who will make the new Bonn Motor Sales garage click. ... In case our readers don't know all these chaps, we will identify them for you. . . . In the driver's seat (naturally) is Jack Bonn, head man of the organization, and that look on his face is a look of a "dream come true".... Next to Jack, leaning over the windshield is Warren Soules, accountant and bookkeeper, and his look is one of Happy anticipation, as he thinks about the roomy new office he is going into. . . . Now, starting at the lower right hand corner and going clockwise around the Jeep, we start with Frank Bonn; next, and with his feet hanging over the front is Mac MacDonald. manager of the B.A. Service Station, run in conjunction with the garage. . . . On the leftfender we find Eric Johnson, who represents Bonn Motor Sales in Hastings County. . . . The chap giving the "thumbs up" sign is Alec-Strickland, mechanic, who will specialize on Jeeps. Looking over Warren Soules' shoulder is Lionel Westfall, stock-keeper. The chap leaning back with that "let-er-go" look is Keith Wagar, service station attendant. These men are the people whom you will meet when you come to Bonn Motor Sales. Whether you're after a Jeep, some of those good B.A. products, a car wash, or if you just stop by to pass the time of day, remember, you are always welcome!

#### Special Prize for Radio Listeners

During the broodent from 8.00 to 8.30, SATURDAY EVENING, the radio audience will be asked a simple question. Send your answer to BONN MOTOR SALES, SELLE. VILLE, and on THURSDAY, FERRUARY 13, on the regular BONN program, the winner will be drawn. The price:

LYNCH COAL CO.

Teachers

#### - MOULD TOMORROW'S CITIZENS ...

for you entrust to them the education of your children. The men and women who follow this profession render to the community a service second to none. Every parent and every public-optited eithen must relet that only people of the highest calibre should be entrusted with so vital a job. BUT UNFORTUNATELY::

#### CAPABLE AND EXPERIENCED TEACHERS ARE QUITTING ... Why?

because . . . The salaries paid to teachers in every Ontario community have lagged far behind the rocketing cost of living.

becassis . Although deroted to their profession, many teachers feel that they cannot afford to pass up the opportunities for higher salaries offered in other fields.

TOO FEW YOUNG MEN AND WOMEN CONSIDER TEACHING AS A CAREER ... Why?

Seconds . . Other professions offer far greater financial re-turn to a young person.

because . . . Teachers must spend as much time and money training for their job as any other professional group, without hope of a proportionate income.

THEREFORE ONTARIO TEACHERS MUST BE BETTER PAID ... Why?

A teacher cannot maintain his position in the community as he is expected to do, on a salary which keeps his standard of living relatively low.

Secassis . If the teaching profession is not made more francially attractive, losses to more locrative professions plus failure to attract fart-class replacements must inevitably lower the standard of education in this province.

The education of our children must go on. The teachers of Omario deserve your support. Let your School Trustees know that you favour better salaries for the teachers in your community:

THE ONTARIO SECONDARY SCHOOL TEACHERS FEDERATION .

Toronto 5, Onbario 30 Bloor St. W.

terment.

The nation owes a debt to the organiza-tions and individuals who have at heart welfare and health so that Canada and her people may attain the maximum of health and all those things which are so many, which flow from good health or success in

Activity of Blind

This week has stressed White Canadian Institute for the Blind there are stressed in the control in the cont ect. included in the forth registration are seven children in attendance at the Ontario School for the Blind at Brantford. Of the remainder many are aged or have disabil-ities in addition to their blindness.

A new activity for the blind of Belleville has recently been organized by the Belle-ville Y's Men's Club and organized by E. G. Brown, a representative of the Institute.

ortities and to those who live in places just of the ways where heavy drilling is not unual in the winter season.

Show in its ethereal sense of beauty is something to be admired but on a roadway something to be admired but on a roadway will be contributed by high-cost removal machinery and the mouse of some made and mach beach and the recent full in the standard of the standard will be something to be admired but on a roadway walk the dogs, fit new washers for the kit-own makes of some mach beach and the recent full in the standard of the standard washers and the standard washers for the kit-own when it is removed. Cut fathers and municipal authorities look upon elearance in the form of a questionnaire what can be done with of a questionnaire "what can be done with it?" At the same time it raises the question es of high-cost snow

machinery.

People have to keep their walks on their claims at the table, tugging mother's own lots cleared and to make sure that their driveways are not blockaded because ledly stains upon it daily seem to leave; some sime the coal man will have to come Gown for party dinner, common work-day to he keeps clear to and from the garage. Mothers are the common work and to be keeps clear to and from the garage. Mothers and the common work and alone driveways are mounting steadily. along driveways are mounting steadily.

So the fall of snow which winter assures in greater or less volume has become seasonal question for every individual, for municipality and for the Province.

Your Family Needs PROTECTION

Life insurance is not a luxury. It is an essential you must place first on your list along with food, clothing and shelter. Insurance predection provides for the replace-ment of income for your dependents if you should dis, and guarantees the fulfillment of your plants for their fu-ters. If you live, it will provide funds for your later years.

No marked changes in the reading of the public served by the Corby Public Library Board have been reported by the Librarian, Miss. O. Delaney in the annual report, except for a sleady increase in requests for books of a more practical nature such as electrotyping, house wiring, woodworking, and for books dealing with hobbies and

handicrafts. There were added 865 new members last There were added 865 new members last typear and rural readers have doubled. Total circulation 88,717 was made up of adult books for home use 83,256, juvenile books 21,951 and reference books 3,500. In the adult readers' section fiction was first with 51,145 books out of a total of 62,566. Bickensphe led all requires of new forms.

63,256. Biography led all groups of non-fiction, travel books stood second in popu-larity, other groups in order being maga-zines 1,550, fine arts 1,446, literature 1,402, useful arts 1,347, history 1,245. The boys' and girls' section put fiction at the top of the list with 15,746 borrowings, as against

useful arts 1,3%, nasway and girls' section put faction at the top of the list with 15,6% berrowings, as against that with 15,6% berrowings, as against forth led not-fiction, fairy stories second and useful arts, travel, science, magazines, holography, fine stats, Birls stories and history in order named. The reference library from centres of libraries are libraries and history from centres of libraries are including as a more manul biraries some years ago and now small biraries some years ago and move small biraries some years ago and with this through the production and according to the report it has 'unlimited possibilities.' It is pointed unto the 'to keep pace with the times see the contract of the contr

Modern public libraries continue to expand in service to the public and to the land in the continue of the public and to the contentianated, especially on the young-readers. The service buy bring to their public is vital to and enriches the lite of the individual and the combinative. Wisdom near at hand can find.

Cost of Common Cold

OBE of Common Township are voluntarily haking part in a nationwide experiment to elected the "common code" promoted by the lanistry of Health in conjunction with the Hofelian Research Council. Particular instance is being attached to this attempt as this infection alone causes the loss of 40,000,000 man days of work in Britain

# You and Company - FOREIGN TRADERS

Men and women are working for your dimes and dollars in the coffee fazendas of Brazil, the tea gardens of the Far East, the banana plantations of the Caribbean. The seven seas are dotted with ships carrying your orders. You and your family are important operators in the import business.

"But why kiss good-bye to all that good Canadian money?"-you may ask. The answer is-you don't kiss it good-bye. Foreign trade is a two-way business. Those ships inbound with your purchases will sail out again filled with Canadian goods. Your dimes and dollars that went abroad will help to buy Canadian goods. Buy a banana today and you help to finance the export of a Canadian product! And, if your daily work abould seem remote

from foreign trade, don't let that mislead you. Actually you're right in the middle of it. For foreign trade creates one-third of all Canadian jobs, builds one-third of our home market, gives you one-third of every dollar you make,

Do all you can to help this vitally important business. Put your best into everything you produce. For, by making Canadian goods desired above all others in foreign markets, you are helping to provide future security, more money, and better living-for yourself!

To help businessmen with foreign trade problems, Canada has Trade Commissioners in 35 Empire and foreign countries. If you seek information on any aspect of world trade, write to-

Hockey Results | Pacific Court Learne | San Francisco 3, New West-

Two million or more motorists from the States visit us each year ... thousands for the sheer beauty of our countryside. Let's see to it that our hospitality matches the perfection of our lakes and hills.

WHAT CAN I DO?

The answer is—plenty! Here are some of the things anybody do. The suggestions come from a well-known Ontario hotelman.

a booster.

Write your friends in the States
about Ontario, abow them when
they come that you're really
proud of your province.

Are reputation for courtery
afair reputation for courtery

Try to make all our visitors glad they came, and be really anthu-sastic about it.

fairness depends on you.

To sum it all up, just follow the "Golden Rule!"

to take a holiday so let's see they get a good return for

MARTIN'S AMBULANCES

24 HOUR INSTANT SERVICE

in Belleville and District, and since that time has safely transported thousands of patients. We have endeavored to procure the latest and most modern equip-

. Due to the ever-increasing volume of ambulance calls received each year and in order to maintain the very best service possible we have recently added a second ambulance to our motor equipment. This new Custom Dodge Fluid Drive, like our present LoSaile Ambulance is completely equipped for all emergencies. It has the latest type stretcher and carries complete medical and First Aid supplies for the patients' comfort. With the addition of this second ambulance we now feel we are in a posi-tion to give faster, more efficient, 24-hour service, than ever before.

We take pride in the appearance and cleanliness of our equipment and shall consider it a mark of favor to have you inspect our ambulances at any time.

AN INSIDE STORY LIFE ASSURANCE SERVICE

The Balance Sheet of Canada's largest life assernance company, reveals 1966 as one of the most progressive periods since the Son Life issued its fire policy 76 years ago, but figures alone still little of the human story behind this great cooperative enterpits. For instance, last year over \$100 million was paid out in benefits. What-sid this mean to the thousance of policyholders and beneficiaries who shared it? Here in beitef is some of the story between the lines:

\$1,919,999,149

NEW ASSURANCES

ASSURANCES IN PORCE \$3,573,132,783

The savings which Sun Life policyholders send to their The savings which Sun Life policyholders seed to their Company in the form of premium to provide protection against the hazards of concrow are invested in the uniton's industries, in farms, homes and schools, in public utilities and Government Bonds, to be converted into employment and wages, thereby contributing to your economic ratability, and that of many thousands of your fellow of citizens.

SUN LIFE OF CANADA uplets copy of the Assuad Report for 1946 will to all policybelders, or may be obtained from

| VOLENT DEDATE | Idea made against the Calmest | Idea to the Calm

# What's holding back that new Studebaker you want?

LIKE thousands of other Canadians who want new motor care, you may be getting a little short of patience just about this time. The automobile factories have had real prob-

lems to moet, as you know—and you've certainly been wonderfully understanding about their pro-duction difficulties.

But, just the same, every time you see a neigh-bor sporting a new car, you probably wonder why he was able to get one and not you. New-car scarcitice persist because the problem this year continues to be what it was last year—

so many people needing cars and too few cars available.

Slowly and surely, though, the automobile factories are beginning to catch up with the pent-up new-car demand. But in Studebaker's case, it's going to take more than greatly increased pro-duction to relieve the pressure on Studebaker

That's due to the fact that the new 1947 Stude-

distinctive by comparison with all other cars. People want new Studebakers so much that thousands of them are actually passing up chances to take delivery of other cars.

Naturally, you can't blame anyone for prefer-ring the out-ahead style and complete all-around newness of a postwar Studebaker. But that doesn't make things any easier for Studebaker

You can be sure, nevertheless, that you'll be well rewarded for all the waiting you've done, once you finally get the new 1947 Studebaker Champion or Commander you've been counting on. You'll have a real postwar automobile—the tops in style, in riding comfort and handling ease—and the greatest new-car value on the market.

So, please be patient with your Studebaker dealer. And go easy on your present ear. Let your Studebaker dealex help you keep it in good operating condition.

entine?"
This very modern would still cherishes the day and honors it with social gatherings, and, the sending of valentines. Only five weeks from spring it is a time of forward foolding to the end of winter and of the revival of life in the world of nature. The very spirit of romance is in the time.

that make belt can be treated to these scraps and so helped in their fight to eke out a living in the cold of winter. All-year in-habitants of the north trust to seeds and such like for subsistence but are ready to auch like for subsistence but are ready to accept any scraps that thoughtful people put out for them. Other birds there are, driven from far north by the severe cold and food scarcity, who often pay winter visits and these will profit by any meal of scrape that may be put out for them.

#### Bringing Names Back

It is reported that continental names are

It is reported that continental names are being given to Brittish children and that this is "an aftermath of war." The names quoted, however, do not support the story—Annabelle, Annelte, Yerones and Diana. English. Christian Names' Annabelle reached continental Europe from Scotland, where it dates back to the twelfth century in the samily of the Earl of Morsy. A couple became mother of James I of Scotland and the fact that the name was in use when Anne was witnally unknown ungueste that it derives from Annabel and has no contained the second of the Scotland and the fact that the name was in use when the second of the second

treenth century.

Tar from deriving popularity from recent events, Annette goes back in popularity to the wife of Richard II, Anne of Bohemia,

the wife of Richard II, Anne of Bohemia, and its steady growth in favor may possibly have been clinched by Queen Anne before her death became provertial.

Yvonne, although it is a fairly modern survival from France, is only the feminine diminuitive of the masculine Yvon or Ivon wife our Ivo, which came over with the Norman Conquest, and is Celtic in origin.

Snow Trees.

The Romans, it is said, set saids fricting further through the foot of the foo

whithir of weothind, meadow and heege-row has sought proceeding in burrow and beneath; the branches of evergreems. Through dim daylight hours and the still blackness of night the fakes full silently and steadily.

In the early hours of a new day, when the clouds have disappeared and the sum thines from a clear story that the sum thines from a clear story that the sum the clouds have a clouds of white. The maples, oaks and clear are gray and while technings in the bright smulght. The Feeding Birds maples, oaks and elms are gray and white sections of tread, hard bread, waste sections of tread, hard bread treads to the section serve a useful purpose these days when king. For a few breath-taking hours there's ground, hiding every vertige of bird food Ball, when the bees put on their beautiful intended to the section of the sec

#### Newspaper Facts

"Three of kind gives pair full house" was the newspaper heading of a story about the birth of triplets in one midwestern U.S.

#### JUST FOLKS

EIGHT YEARS AGO

By EDGAR A. GUEST (Copyright, 1948, Edgar A. Guest) Oh, there is no doubt about it, it's a

Oh, there is no doubt about it, it's a day to celebrate
When a boy who has been seven for a
year, wakes up as eight!
From the way he squarte his shoulders
and the way he holds his head,
You can tell that "eight" hereafter
yery proudly will be said.

When they ask him for the record just how old he is to state, the will fairly shout it at them: "I was seven, but now I'm eight!" And there must be quite a difference, though it isn't clear to me, Since boys of esren so gladly boys of eight become to be.

See that extra candle gleaming on his frosted birthday cake?
Watch him count: the number over, making sure there's no mistake. From the forthright gladness in him there's no need to have it told It's a cause for celebration when you're really eight years old.

## CANADA AND U.S.

#### To Each His Own"

The OPTOMETRIST concerns himself only with those-matters for which he has been specially trained, and for which he is licensed by law to practise.

The practice of Optometry is NOT a side line activity—or one that is incidental to ANY OTHER ACTIVITY. It is a field which consumes all the time and energies of its practitioners.

This is so because the investigation and correction of visual malfunction as it is understood today requires ALL the efforts of an intelligent man.

NO DRUGS USED. BY APPOINTMENT PLEASE.

**BROWN'S** 

Tomorrow, he may be riding the winds in a real plane . . . charting new ways into Canada's Northland, topping the flountains of the West, bridging the ocean in a trifle of hours . . . with other lives dependent on his skill and judgment.

In whatever field his fancy ranges, marvellous things await him in the Canada of Tomorrow.

Provided only he is offered the stimulus to ambition, the open door to achievement, which wise statesmanship and enterprising leadership alone can provide. These only are needed to start him on the march to New Horizons in Canada Unlimited.

Throughout the rural areas and the province generally man's labor with plows and other equipment has triumphed over blockade so that transportation and communications are in good condition except in a few isolated areas.

#### Flying to School

In some parts of Africa children go by air to their classes, not necessarily because they are enthusiastic but for the simple reason that there is no other form of transportation available. Appropriate aircraft are used in out-of-the-way districts where the farmers live a hundred miles or more from the nearest school. A United Kingdom arous country to the schoolhouses and

across country to the schoolhouses and back home. With the alertness of pupils anywhere, with the across of the school of the sc look upon the African boys and girls who fly to school as exceedingly lucky. These children of Africa will be at any rate well educated and airminded which evidently will be a happy state of mind in the future. Three and a half centuries ago the poet

Bhakespeare who was a true observer of life noticed that in the case of at least some schoolboys of his time there was a tend-ency to lotter and linger on the way to

"And then the whining schoolboy, with his satchel And shining morning face, creeping like small

to school."

But that does not fit the modern s boy and schoolgirl. Regularity of attend-ance and punctuality, are everywhere marked. The pupils of today like to go to school and there is a vast improvement in

attendance. Reasons are plentiful enough, attendative school and play grounds, fine unidings, interesting studies and the healthy attitude of parents, guardans and the public at large in the matter of schooling of the young. The farmers in Africa who send their children by plane because they lives of heavy from school class will have the their studies of the public at large the public at the public at large the public at the large three public and the large three public and the public at the public at the large three public at the public at t

young.
So the boys and girls everywhere go to school regularly and punctually, for a longer schooling than their parents and grandparents were accustomed to, and longer schooling than their parents and grandparents were accustomed to, and they go whether they walk or ride in bus or ear or thm or fly as in Africa. School days in this age should be and are among the happiest in all the history of education.

#### JUST FOLKS

By EDGAR A, GUEST (Copyright, 1946, Edgar A. Guest) BRIDGE

Whenever bridge I play I find (And loss is ours to take) My partner often is inclined To blame the bids I make.

Too slow am I the fault to see In anything he did. He beats me to it, telling me: "You didn't have a bid!"

If only seven tricks are made, When he had gone for nine, Tis not the hand was poorly played, But some mistake of mine.

They've told me, and I understand, Bridge is a partner game.

There must be one to play the hand
And one to take the blame.

OFF THE RECORD

"May I make a suggestion?"

### What Is Security Worth?

You cannot place a monetary value on the feeling of secur-value on the feeling of secur-tivity of the construction of the law adequate financial spotection against the uncer-tainties of the future.

And yet, this coveted Security is within the reach of all who will invest wisely. Through life insurance you wno will invest wisely. Through his insurance you can provide an ineque for your own future years and at his same time you are assured that, should anything happen to you before retirement age, your dependents will have the amount of money you intended to save.

#### WHAT THE TEACHER SHORTAGE MEANS TO YOUR CHILD'S **EDUCATION**

276 PRONT STREET

From the day when formal education begins every child is deeply inflorenced by his teachers. It is, therefore, a manter of the utmost importance to every member of your community to ensure a high student of training and shilly in the teaching preferition. But in Gonne today their is evincular hunger of teachers.... I from the 'little red schoolshouse' to the large position choosis. TI CAN MEAN.

LOWER STANDARDS Academic qualifications for Normal Schere down. This year in order to keep schools open, School Board Ontario are employing at teachers bundreds of untrained or per-trained persons, some of whom have not similed their own school

CLOSED SCHOOLS If the situation does not improve som schools in this province may be closed because trachers are so able. A statistical survey shows that by 1949 Onstrowill be able 1500 elementary school teachers if something is not does a Do you think children should be denied their education?

#### WHAT IS CAUSING THE DANGEROUS SHORTAGE OF TEACHERS IN ONTARIO?

INADEQUATE SALARIES Salaries paid to teachers in the elementary schools are discouragingly low. In constrast with the greatly increased cost of living they have risen, in many instances, very limit above pre-war levils.

#### LIMITED OPPORTUNITIES FOR WOMEN

Women reachers who are greatly in the majority in elementary achools abuse responsibility for the early and vitally important years of the child's education. They are frequently paid less than men holding smiles possible, and are spidom considered for promotion to admirish

#### THEREFORE

# CFRB's 20th Anniversary

NEBRUARY 19th CFRB embarks on unother twenty years of service to Ontario.

During its years of operation, this sta-tion has taken the lead at every stage of broadcasting development . . . in quality and power of signal, in programming to the next twenty years. We renew our pledge to carry on towards the greatest good of the community as a whole. We will keep CFRB "Ontario's favourite radio station". . . first for information, first for entertainment, first for inspiration!

#### Author of "Beautiful Joe"

"Reautiful Joy" is a title which is known to Canadians everywhere. It is known in Who's the rich man? He who buys the United states and beyond Korth America. Its author has enjoyed fame ever since is author has enjoyed fame ever since for the humbler dresser who save a dollar one will do? its appearance in 1904

he appearance in 3904.

Not many sultions live forty-three years after their greatest work but that has been Who's the rich man? One who eats the destiny and privilege of Margaret Man-Al the costlier guits of meaks, about 500 members. The book, the slory of the Orr he husband who can look reads work that has won the highest fame.

Bet work and like were guided by the introduced by the rich man? One with books, a work that has won the highest fame.

Bet work and like were guided by the introduced by the rich man with just a few parts of the property of prominents. O'r the man with just a few parts of the property of prominents of the property of prominents of the property of prominents.

ian. She received many honors, including in the LBE. from King George Fifth and a lf with little, one can find degree from Acadia University for her work. Happiness and peace of mind, In the story "Beautiful Joe" she has left Loving welcome at his door, a memorial which is still read and which Does the man with much, do more?

will continue to lend an influence in the creation of the spirit of kindliness to animals. Her humanitarian interest was markroughout her long life.

#### Accident Averages

Accident Average.

The composite nutromobile accident is the result of the collision of two cars, in day-light and with the weather class, the road collision of two cars, in day-light and with the weather class, the road collision of the cars, and the collision of the cars, and the collision of the cars, and the cars, and

An additional factor must make the dif-ference between safety and danger. Almost half of the drivers who were in accidents did not have the right of way at the time of the accident. It did not matter whether they were ignorant or plain cussed — the result was the same. One minute of reck-less, heedless or ignorant driving can can-cel out all the good driving done in three years or thirty.—New York Sun.

#### Match Problem

An unnamed genius has figured that if match sticks were shortened one-quarter of an inch 380 car loads of lumber would be

an inch 300 car heats of manter would be saved in a year.

Probably he is not in position to order the change, therefore it is not necessary to be-ware of him. But we must always beware of his kind, those who tell the part of the of his kind, those who ten the part of the story that favors their proposition but say nothing of the difficulties that would at-tend its adoption, or imposition. The match problem is merely typical, a

### Pasteur said:

# "SAUERKRAUT IS THE MOST USEFUL AND MOST HEALTHFUL VEGETABLE DISH ON EARTH'

Contains vitamips A, B and C, and valuable minerals; also lactic scid which is beneficial to the stomach and bowels.

# Sibbys Sauerkraut NOW at your grocer's

RRING ON THE

SAUERKRAUT

Science has discovered that Sauerkraut, long popular because of its eleasantly stimulating flavour, is one of nature's best medicines. Pasteur, the famous French scientist, father of pasteurization, placed it first among all vegetables from a health standpoint. When you enjoy its delicious piquancy, you are enjoying tabbage in its most easily digested form, and fortifying yourself against many common ailments.

#### PRAISED BY DOCTORS

Renowned doctors have sung the praises of Sauerkraut, recommended it as a tonic and conditioner, prescribed it as a cure for stomach and liver troubles. Besides containing valuable vitamins and minerals, Sauerkraut is rich in lactic acid. It has the effect of retarding many diseases of middle and old age, such as hardening of the arteries, rheumatism, gastritis, obesity and dyspepsia. It increases appetite and aids digestion, purifies the blood and fights disease germs.

#### THRIFTY AND APPETIZING

Often called "the poor man's dish and the rich man's medicine", Sauerkraut, which rates so high in food value, is one of the most economical vegetables you can purchase. In season all year 'round, when properly prepared it is a general favourite because of its pleasantly invigorating tang.

# SAUERKRAUT CHASES INDIGESTION

#### LIBBY'S NEW PACK

Libby's new pack, now on the market, brings you Sauerkraut at its flavourful best. Libby's use only the choicest cabbage, and every step in its preparation is scientifically controlled to produce consistently delicious eating. Libby's Sauerkraut is never biner, sweet or rancid. It is uniformly golden in colour, crisp, firm and appetizing. Delicious just as it comes from the can, it is equally tasty in salads or hot dishes.

Libby, McHaill and Libby of Conada, Limited, Chathom, Octobe

#### WHAT DOCTORS SAY ABOUT SAUERKRAUT

"Saucricross contains all the valuable food electes of the cabbage. . . . It is a wonderful appearer . . . and midt digestion—Dr. H. N. Bandaten. "Sourchrast adds savour to other foods . . . bales greatly latitioning digunion, hence has often proved to be a curative values various types of dyspepsis,"— Dr. A. K. Detviller.

trust is a scientific and invaluable food terment for stomach, howels and
it is a Villadial for your stomach as gestrick,"—Dr. Joan Assign.

erhrant is a valuable food . . . in that its adency would be to prevent the th of harmful bacteria in the intentions with an manetimes responsible for

THE CATTARIO INTELLIGENCER

TO CARROLLE AND ADMINISTRATION OF THE CARROLLE AND ADMINIS

must draw its strength.

This year's commitments are both current and long-term.

rent and long-term.
Current commitments (some transitionia) are: firstly Western Europe. The need
to retain adequate strength in Germany to
provide security and support for the policy
of the Control Council remains undiminshed. The forces remain in Austria peridished. The forces remain in Austria perid-

shed. The forces remain in Austria periching Allied agreement to withdraw.
Secondly, the Middle Baxt and the Mediterranean. The forces can be withdrawn in Tably when the treaty is signed, spart from the periching and the second of the second that the perichina force in Trieste until the new regime there is rully established. The forces in Greece have been reduced and it is hopped the rest will large for "a limited period only," Palestin requires substantial forces from all three services. All three are period only, "Palestin requires substantial forces from all three services. All three are forced in the services of the services o

Mhe terre Colombs.

Thirdly, the Idian Ocean Forces are needed in the Indian Ocean and Persian Gulf and some are also being retained for the present in India and Burms.

The following long-term commitments

The following long-term commitments use in any case fundamental:
Firstly, the security of Britain, which remains the main base for specialized training and administration of all the forces.
Secondly, the safe-guarding of communications. Thirtly, contribution to United Mactions forces for use under the Security Council when celled tupor-according to the

at a estimated cont. Les fine and women in the forces in March next year will number 1,087,000. At labor force of about 450,-000 will be needed to meet their requirements (by the end of last year the figure had been reduced to 489,000.) The improved international situation may allow a proved international situation may allow a

eduction.

The supply of equipment is still guided
by the four principles of concentration on
essarch, a limited introduction of equipment of the most modern kind, the maxinum use of accumulated stocks and the naintenance of a reasonable war potential, the navy will do little more than keep the sisting fleet efficient, continue at a reexisting fleet efficient, continue at 'a re-duced rate the construction of ships being built and re-equip the Fleet Air Arm. The army will continue fo produce the most up to date types of annored vehicles and re-equip anti-sirrart defences. The air force will progressively re-arm with the most modern-yet-propelled fighters, begin re-placing its American transports and intro-duce row throughput.

placing its American transports and intro-duce new troop-carriers.

The government attach the highest in-portance to the encouragement of scienti-fic research and development. The new De-tence Research Policy Committee, through a close laik with the Chiefe of Starf, will be close to the control of the control of the portational thought and be able to influ-ence those concepts. From this will emerge it is planned a unified, comprehensive view of the probable nature of any future war-fare.

fare.
The cost is apportioned as follows: the army, £388,000,000; the air force, £214,000,000; the navy, £197,000,600; supply, £100,-

#### Caprices of Weather

Recent developments stress the urgest land.

Recent developments land.

Rec

Bryant in "A Winter Piece" caught in his mething of the spirit of the month of

"Come when the rains Have glazed the snow and clothed the trees

Tome when the raise and clothed the tre with ice, while the slant sun of February pours. Into the bowers a flood of light. Approach. The incrusted surface shall upbear thy step And the broad ariehing portals of the grove

In the month so soon to some, there is the beauty of the approach of spring. There is "the wild March morning."

#### We Need a Sane World

It is encouraging that Canadian educa-tionists are realizing that if there is to be a balanced and a sane world we must re balanced and a same world we must remem-ber that science must be tempered by a realization that science run wild, as it did in Germany without clusideration of the moralities and the spiritual side, is disas-trous. It is to the universities and the lead-Fourthy, the Far East.

Fifthly, small forces are required to support the local forces in Africa and the World of peace, good-will and tolerance, the London Free Press remarks.

#### Taking a Sandpaper Bath

I am passing this tip along for what it is worth. You will be surprised how good it feels to take a dry rub, a "sandpaper bath." Rub lightly all over the body and press tions. Thirdly, contribution to United Net down more where these are calculated places for use under the Security on the soles of the feet. Use a small sheel agreement to be contribed.

It is estimated that the men and women to the property of the contribed.

It is estimated that the men and women to the property of the property of

#### Newspaper Facts

#### JUST FOLKS

By EDGAR A. GUEST (Copyright, 1946, Edgar A. Guest)

#### CAR DRIVER

He is a pleasant man to meet When he is walking down the street. On foot, he wouldn't harm a soul; He keeps his temper in control; With no one would he start to fight; To women all he's most polite. But furious his rages are

Whenever he is in whenever he is in his car.

At dinners, dances or at shows
He smiles at everyone he knows,
And for the old and trouble-tried
Will courteously step aside.
A generous host, a gradous guest,
His manners are the very best.
But when he drives, his temper flames;
He calls all people fearful names.

As enemies, all folks he'll class
Who sound the horn and try to pass.
He's sure upon the road can be
No one in greater haste than he. 'Tis he alone who knows the rules. All other drivers must be fools. And I have often thought it strange Car driving works so sad a change.

#### OFF THE RECORD

"Step being so dramatic, Goorge! You'll grow to love that

### Never touch a fallen Wire!

Wind, snow and sleet break down electric wires semetimes in spite of every procaution. Shock or severe burns can result from touching such a wire. Never touch a fallen wire.

Warn children not to go near fallen wires: :; but do not risk a monstration by trying to move one out of the way. It can be fatali nbor these three things if you discover an electric wire on the r dangerously low:

1. Do not touch the wire under any circumstances:

Stay on guard and keep everyone away until Hydro men arrive.

3. Have your nearest Hydro office notified at once.

THE HYDRO-ELECTRIC POWER COMMISSION OF ONTARIO

ncerned and the contract, or a duplicate thereof, is filed with the Bo

# 1947 CHEVROLET!

# **BIG-CAR QUALITY AT LOW COST**

now made even bigger-looking, even better-looking even more beautiful and desirable in every way

Chevrolet dealers are displaying the newest creation of Canada's largest producer of automobiles - the new Chevrolet for 1947-offering you an even greater measure of BIG-CAR QUALITY AT LOW COST!

See it and you will agree that it's the biggest-looking and best-looking Chevrolet ever built. It's more beautiful in every way, both inside and out. It's designed to out-style, out-value and out-drive all other cars in its price range. And above all, it reveals that sterling Big-Car quality-in every phase and feature, in every part and pound of material-which buyers agree is exclusive to Chevrolet in its price range.

A PRODUCT OF CHEVROLET

**ASTHMA** BRONCHITIS COLDS

GRAY'S BA

Every Canadian today is asking himself this question: "How much more will it cost me to live tomorrow?"

The answer depends on us ... Living costs should not increase ...

IF-we all keep on resisting the temptation to try to get more than our fair share of available goods.

IF-we continue to restrict our purchases to what we really need.

IF-we keep on producing as much as we can at as low a price as we can.

IF-we continue to support to the full our Government's wise measures of control.

IF-we continue to walk the middle road, the road of moderation in all things-in our thinking, in our actions and in our pleasures.

IF-as The House of Seagram has always suggested, we continue to think of tomorrow and practice moderation today!

WHAT CAN I DO?

The answer is plenty! Here are some of the things anyone can do. The suggestions come from a well-known Ontario hotelman:

known Ontario botelman:

1. Know the places of interest and beauty spots in your district and rell people all about them.

2. When you write your friends in the States tell them of the placesthey wouldenjoy visiting.

3. Try to make any visitor glad

he came.

4. Take time to give requested information fully and graciously.

5. In business, remember Canada's reputation for courtesy and fairgees depends on you.

6. To sum it all up, follow the "Golden Rule."

when we visit them ... we can't do less than return the compliment. Remember that it costs money to take a holiday . . . so let's see they get a good return for every penny they spend

Campbellion, N. B. — (CP) —
A warning has been insued here
by the police department that R.
C. M. P. will take action to keep
children from coasting or playing
on the streets of the town. It was
emphasized that, with high snow
banks along most of the streets,
it is impossible for car drivers
to keep a lookout for youngsters
in 'all directions.

mailier means with feel that they are bearing their full share of the tax burdens as they now are. Motton pictures are largely patronized by the working people and the large property patronized by the working people and the large patronized by the working people and the large patronized la

The man on the street in the smaller municipality critically will not wiscome this "nutance tax". Local sports events are one out constantly will not wiscome the street of the street o

recreation feet that they are paying enough or their recreations are some definitely at Theme tax purposant seems definitely at time when there is a strong feeling in favor of reduced taxation and in opposition, to design the strength of the strength of

variety.

There is no doubt that the setting up of a new tax as proposed would be unpopular with the people who are sufficiently bur-dened with taxes and are looking for relief rather than for another tax to relieve them of their spare hard-earned funds. It is to be hoped the Ontario Government will ignore the Toronto recommendation.

#### Blessing the Plough

An interesting service, one of many similar ceremonies held in English country ehurches, was broadcast by the BBC re-cently from Nocton Parish Church, Lin-

cently from Notion Parisa Church, Lio-cinchira.

The Committee of the church bells in the background, a description was given of the service. Representatives from various farm-ing organisations, the National Parmers' Union, the Young Parmers' Chu, the Agri-cultural Workers' Union and the Woman's and the lessons were read by local farmers. A plough was forwed up the church during the service and the Bilesting of the Plough, the supplementation of the Plough and the programment of the supplementation of the Plough and the supplementation of the Plough and the Plough and the land that the Ploughman, the farm and programment of the Plough and the Plough and the supplementation of the Plough and the Plough and the supplementation of the Plough and the Plough the supplementation of the Plough and the Plough and the supplementation of the Plough and the Plough and the Plough and the supplementation of the Plough and the Plough

In pre-Petermation days, English OFF THE EROCKED ploughtness used to keep lights burning before church shrines to obtain a blessing on their work. "Plough Monday" processions, when is guity decreated plough was drawn through the village by possible and the procession of the process

#### MEETING AT TABLE

We had never met each other; we had judged from what we'd heard. We were merely names connected with events which had occurred. Each had voiced his firm opinion that

the other must be wrong, And we fancied with that notion we

and we innesed with that holden we could never get along.

But, we met one day at luncheon, side by side at table sat,

And we smiled at one another and we

talked of this and that. He told me about his children and the

hopes for them he had,

hopes for them he had.

The several term is a support of the several term is a several term in the daughter, and the reschooling he would give them, and he proudly let me see

The rictures, which he carried. Like my own they seemed to be.

There was one the Lord had taken ... and his sigh was honeis stuff,

So I couldn't keep from saying: "And they've told me you are tough!"

On there seems no dom't shoult the support of the seems of the source is the seems of the seems of the seems of the source is the seems of the

Oh, there seems no doubt about it, troubles small and troubles great

troubles small and troubles, great.

Can be met with understanding, but they grow if met with label.

Let the gessie met deceded. It is considered, if is not seen to be seen the seen to be seen the see

A CERTAIN COOK

Clubs must have a pastry cook,
And one to broil the steak. Hotels insist a specialist
Whatever's served must make.
There's one for soup and one for rolls,
For coffee and for tes,
But best of all, the cook, I'd call,
Who got the meals for me.

She made the soup and made the pies And set the table, too.

She had the skill, and had the will For all a cook must do. tchen shone with tender care,

Well stocked her pantry shelf.

rom soup to cake the meal she'd make

And did it all herself.

We seldom see the master chef Or him who bakes the ples, But I could look upon our cook And lovely were her eyes. For always at the table's head

She sat and smiled at me

Salem

# Mr. Watson, want you!

Alone in his room, weary in spirit, Aluxader Graham Bell again poured a sulphuric acid solution into his transmitter. Just three days before, on March 7th, 1876, he had received the first patent on his tel-pone... but his experimental model was still carrying only mulled, indistinct sounds.

ant, Mr. Watson, waited at the receiver . . . waited for words that came through only as a dis-appointing noise.

Suddenly—just as he once nore adjusted the test transmitmore adjusted the test transmit-ter—Bell's over-anxious 'arm upset a beaker of sulphuric field. In an instant the burning liquid spattered his clothes. Dismayed, he cried out: "Mr. Watson, come here, I awast yout"

The sulphuric acid dripped amoticed on the floor as Bell ran into the other room to test

ceiver his listening ear caught Mr. Watson's clear-spo and the teleph

Only one other message trans-mitted that day is recorded in Bell's diary. It was a cry of grateful jubilation—"God save
